BACKGROUND

Electrical School graduates who are motivated and results-oriented and looking for challenges in backend data processing. Offers agile, efficient and thorough performance with a proven ability to drive company progress, deliver successful results and collaborate within teams

KEY COMPETENCIES

Process improvement

Data processing

PROFESSIONAL EXPERIENCE

Jan 2021 - June 2021

interns as operator

During my time as an intern, I was experienced in handling heavy items and ensuring safe and efficient handling. Apart from that, I am often assigned to supervise the activities in the work area, ensuring that every process runs according to safety procedures and standards. This experience developed my ability to manage workload, thoroughness, and supervisory skills in a dynamic work environment

KPPS workers

Feb 2024 - Feb 2024

Project Management Assistant

As a member of the Voting Organizing Group (KPPS), I am responsible for ensuring the smoothness of the voting process on election day. My duties include assisting voters, checking identities, distributing ballot papers, and maintaining order at the polling stations. I was also involved in the vote counting process carefully and accurately, as well as reporting the election results to the relevant committee. This experience developed my ability to work in detail, be responsible, and work together in a team to achieve common goals
